- Our New Products

BE FRESH

Fresh Air & Pleasant Smells

We now offer various air cleaners to neutralize bad odours and spread pleasant fragrances.

We offer various:

- Dispensers
- Air Cleaners
- Gels
- Liquids

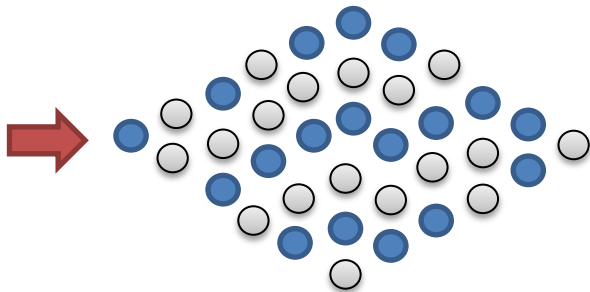

...that will cleanse bad air and provide fresh and pleasant smells.

How it works:

- Oxygen is a chemical element which tends to enter chemical bonds with other elements. – Now and then, bad odours can be the result of these bonds.
- The offered gels and liquids are able to alter the structure of molecules – thus bad odours are neutralized while pleasant fragrances are set free.

Starting Situation:

Bad odours are bond to molecules
wihtin the room air

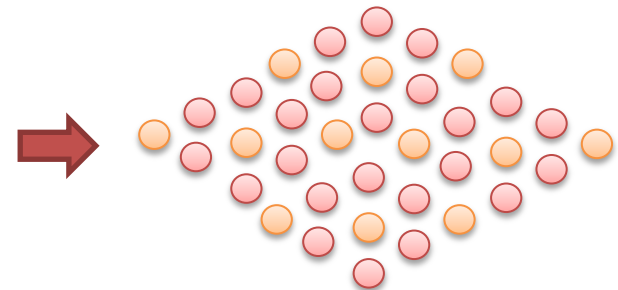

Neutralization:

Alternation of the
molecular structure

Outcome:

Bad odours are neutralized while
pleasant smells are bond to the
molecules

How it works:

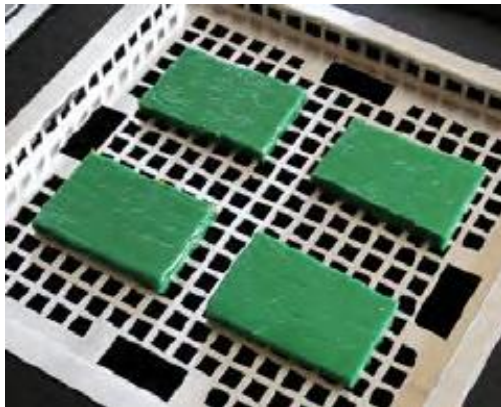

- There are various kinds of dispensers and air cleaners. Their function is to activate the gels' neutralizing power and to set free their pleasant fragrances
- Depending on the size and shape of the dispensers and air cleaners, there are various ways of installing them. For instance, they may be attached to doors, walls or simply put on a table or shelf (if self-supporting).

Gels und Liquids

Most gels and liquids are made of water and essential oils, and can be put into the domestic waste.
